SUMMARY

I am a passionate and results-driven computer science student with extensive experience in communications and IT support. With a keen eye for detail and a strong foundation in software development, I have successfully developed several applications that provide real-world solutions. I thrive in collaborative environments and consistently strive to improve user experiences through effective tech support and innovative design.

EXPERIENCE

Communications Officer

MicroDevelopment Consulting Limited (MDCL)

08/2025 - Present

A consulting firm specializing in community development

- Developed and produced engaging content including weekly social media posts, monthly fact sheets, and quarterly newsletters
- Drafted and edited articles, press releases, blog posts, and success stories to highlight organizational initiatives and impact
- Managed social media accounts (LinkedIn, Twitter, etc.) and implemented content calendars to improve engagement and brand visibility
- Coordinated communications support during events, workshops, and conferences
- Monitored media coverage and trends; tracked performance metrics and prepared monthly communications reports
- Achieved measurable KPIs such as increased audience engagement, follower growth, and timely content delivery

IT Support Personnel

School C-Pilot Solutions

02/2025 - 06/2025 Kaduna

IT service solution provider focused on education

- Successfully pitched and deployed School C Pilot software to reduce administrative workload
- Delivered IT training and ongoing support to staff
- Improved digital workflows and user onboarding with diagnostic tools

EDUCATION

B.Sc. in Computer Science

Ahmadu Bello University Zaria, Distance Learning Centre
